Our Mission

Boasting 50 years' experience, the Miriam Foundation is the largest organization in Quebec dedicated to funding comprehensive, personalized services to support people of all ages with neurodevelopmental disorders, such as ASD or ID, as well as their families and loved ones.

As a non-profit organization our team is entirely dedicated to subsidizing services and programs offered to clients of the Gold Centre, in Montreal.

The Centre owes its success to providing high-quality services, based on scientifically proven practices, and driven by a personalized and family-centred approach.

We ensure that each intervention is tailored according to individual needs and choices while recognizing the specific, often complex, needs of each person and their family. Our dedicated and highly skilled team believes that an individual should be allowed to express their full social potential and lead a fulfilling and active life in society.

The Centre provides a variety of services and programs designed for children, teens and adults.

Over the past 50 years, the Miriam Foundation has provided grants to 8,000 families and loved ones, making care accessible to 8,000 clients.

Through its fundraising, the Miriam Foundation ensure full funding for infrastructure development, facility improvements, residential acquisitions, and the purchase of materials and equipment required for clinical, educational and recreational programs.

Your sponsorship will support
